- 13. The licensee shall not open sealed sources containing radioactive material or remove sources from source holders, except as specifically authorized.
- 14. The licensee is authorized to perform commercial radiation survey instrument and alarming ratemeter calibrations and pocket dosimeter response checks. The calibrations and response checks shall be performed in accordance with procedures described in application dated **January 31, 2025**, by individuals designated by the RSO only after each individual has completed the training described in the application dated **January 31, 2025**.
- 15. The licensee is authorized to distribute leak test kits and analyze tests for leakage or contamination from sealed sources in accordance with procedures described in application dated **January 31, 2025**.
- 16. Except as specifically provided otherwise by this license, the licensee shall possess and use the radioactive material authorized by this license in accordance with statements, representations, and procedures contained in the following:

Application dated **January 20, 2025**,
Electronic mail dated January 31, 2025.

Title 25 TAC §289 shall prevail over statements contained in the above documents unless such statements are more restrictive than the regulations.
